<sup>a</sup> Two stimulated wells were included in a single monitoring event, therefore only one API will be referenced here forward.

<sup>b</sup> Multiple wells may be included in one report as indicated by shared report numbers.

<sup>c</sup> Report number order assigned by S&A for tracking purposes, only.

<sup>d</sup> Field not specified in CalGEM Well Finder. <https://www.conservation.ca.gov/calgem/Pages/WellFinder.aspx>.

<sup>e</sup> Not available.

<sup>f</sup> Only monitored for greenhouse gasses.

<sup>g</sup> Severe weather contaminated sampling media and invalidated the data. Data was not used for this study.

<sup>h</sup> Retests of TO-13 in SIM mode, separate reports were not created.
